3. Children, you all know that it is not wise to waste paper. Rather we must recycle paper. So, here is something that you can do easily. All of you have some old exercise books which you have not fully used. Tear up the remaining unused pages from those books and make your own new exercise book with them. Cover it attractively and name it 'My Own Dictionary'. On each page of your dictionary write two new words, starting with a letter of the alphabet, and their meaning. So, by the end of the vacation you will have 52 words in your dictionary and your vocabulary will be richer by so many words. So, go for it!

4. South Point has become an OHSAS (Occupational Health and Safety Assessment Series) certified school. This is a matter of pride for all of us! We are all responsible for upholding this reputation of the school. Let's take a pledge to keep ourselves and all the others associated with our school SAFE. Think about ways in which you can make the school an even safer place. Now use your imagination to compose a short poem about safety in school using rhyming words. The first line of the poem is given for you:

Let's make our school a safe place for all....
