NOTICE TO GUARDIANS OF CLASSES I TO V

Dear Guardians,

Our online classes have been going on successfully with both our teachers and pupils adapting themselves wonderfully to this new model in education. Although the teaching-learning process, imbued with care and concern for students, is going on unhindered in this new sphere of virtual classes, we have decided to take it a step forward by extending the duration of these classes. Henceforth, from July 6, 2020, instead of having two periods of 1 hour duration each, with a half an hour break in between, there will be three periods of 45 minutes duration each, with a half an hour break after each period. This will not only enable teachers to cover more syllabus but will also help us in conducting live classes in the co-scholastic areas which is the need of the hour. Moreover, teachers will also get to interact with the children more in this new routine. Above all, the shorter duration of the periods and the intermittent breaks will help children retain their attention span during classes. Kindly note that pupils of Class I will have three periods of online classes only five days a week. They will not be having classes on Saturdays.

South Point is committed to providing quality education, while navigating this new reality of e-classrooms and we value your continued cooperation, dear parents in all our endeavours. Just as you have lent us your whole hearted support by enabling your children to attend our online classes with such enthusiasm, we hope that you are also ensuring their academic progress by being actively involved in the scholastic activities of your wards, especially now in the absence of physical interaction between teachers and pupils. By doing so, you will be making their learning experience complete.

The new routine which will be followed from July 6, 2020 will be shared with you separately.

Thank you

Principal
