## **NOTICE – NURSERY I & NURSERY II**

Dear Parents,

We have always welcomed and valued your suggestions. As requested by you, we are planning to introduce an additional period every Tuesday/Thursday, in your child's online class schedule, from the week starting July 12, 2021. The roll strength in each section will be divided into two halves. The first half will attend the extra period on Tuesdays and the second half on Thursdays. The details for the same will be shared in class. As only one half of the roll strength will be attending an additional class on each of these days, teachers will be able to give individual attention to each child and will get the opportunity to interact more with the children.

Henceforth, your wards will be having classes four days a week. We are hopeful that your children will really benefit from these classes as this additional period will enable more class interaction.

Looking forward to your constant cooperation and your suggestions to help us evolve and improve our quality of education.

Thank you.
