

SOUTH POINT SCHOOL

An ISO 45001 : 2018 Certified Institution

NOTICE

Dear Parents,

We are happy to inform you that as per the Government's announcement, we have decided to reopen School for our pupils. Their happy smiling faces would fill our hearts with joy every morning during our virtual classes, and now, we are really looking forward to seeing them in person and filling our empty classrooms with their cheerful presence.

As our pupils have been away from School since the outbreak of the pandemic in March, 2020, you will agree that the children are out of the habit of attending regular school. Hence we propose to initially begin classes for Classes I – V in a staggered manner so that we allow our students to gradually get acclimatized to physical classes. We are working on the logistics for this and will be sharing the details with you soon.

You are well aware that the health and safety of all our stakeholders have always been our top priority, and so, we assure you that we will be following strict COVID protocols when we reopen, in order to maintain hygienic conditions.

You have been the backbone of our institution, dear parents, and have always extended your whole-hearted support in all our endeavours. We are hopeful of your kind cooperation in our attempt to resume School and provide our children with a healthy and conducive learning environment.

Thank you.

Principal
