

SOUTH POINT SCHOOL

An ISO 45001 : 2018 Certified Institution

NOTICE

Sub: Publication of the School Magazine, 'POINTER'

Dear Students and Guardians,

The Publication of the School Magazine is an integral feature of our School's annual calendar. Through the magazine, information on various activities conducted by our dynamic institution is shared with our students and parents. Not only does it provide a platform to showcase the budding literary and artistic talents of our promising pupils, it also accords an opportunity to our educators to connect with and inspire young minds. It bridges the gap between the current students and their predecessors, connecting ex-students' experiences to the present ones, with the hope of motivating our youngsters.

For the past two years, the POINTER has been published exclusively on the digital platform and has received favourable response. This year too, you can access the magazine from the link provided below, and read it on a variety of digital media and devices, including phones, tablets and computers. You can share the full link or of specific pages, with your family and friends and even on social media. The magazine has also been uploaded on the School's website. Do share with us your feedback on this new mode of publication of POINTER.

The link for accessing the publication is given below:

https://issuu.com/southpointkol/docs/sp_w_21-22_final

Happy Reading!!

Principal
