August 24, 2022

Dear Pupils,

Its once again time to visit pandals, wear new clothes and eat tasty food, street food if you are allowed to! The very thought is enough to bring a smile on your lips. Pause to think, perhaps you could magically spread this joy amongst those boys and girls as well as elders who lack the means to enjoy themselves during festivals. So, we urge you to contribute a small amount for them. Your little gesture may go a long way in spreading joy and cheer in the season of festivities.

It would be wonderful if each of you could contribute Rs.50/- for this purpose. Surely it is not too large an amount? Imagine how much could be collected if all of you contributed. It would be sufficient to buy clothes for the young and the old residing in various orphanages and old-age homes of our city and beyond. Some such institutions have already been identified or have approached us. We believe that this contribution from the heart will brighten the lives of many. A word of caution, this money has to have your touch, either it should come from your pocket money or you earn it by doing small chores at home. Only then it would be truly meaningful.

Your apparently small individual contributions will cumulatively amount to a lot and make Kolkata and beyond a happier place to live in.

Your Class Teacher will tell you more about the effort in spreading joy.

Principal
